***Allowance to use Type Approval***  
***Saphir hard coated polycarbonate sheet***  
***For : Clearplex***

We hereby declare that you can use our type approval for SAPHIR, colorless (clear) in thickness 8 mm and 12 mm, with a light transmission over 70%.

The approval number(s) for the respective product(s) is/are:

**8 mm Saphir Clear: E5 VIII/A/M 43R-00066**

Where applicable, also E5 VIII/B/M 43R-00066 or E5 VIII/C/M 43R-00066 can be used, depending on location and orientation.

**12 mm Saphir Clear: E5 VIII/A/M 43R-00059**

Where applicable, also E5 VIII/B/M 43R-00059 or E5 VIII/C/M 43R-00059 can be used, depending on location and orientation.

Please note that this number needs to be applied according to ECE R43 regulation, and that this code can only be applied if our product(s) is/are handled, fabricated, and installed according to our recommendations.

A registry with order and installation information, should be kept at the customer, for traceability control by authorities or Arla Plast, the owner of the homologation.

Arla Plast AB management system is certified according to ISO 14001:2015, ISO 45001:2018 and ISO 9001:2015.
