

## Marking:

Manufactured parts must bear the ECE Regulation No. 43 number allocated to the prime manufacturer. The marking shall be clearly legible and indelible.

### Rigid plastic panes

*This approval mark shall consist of:*

- A circle surrounding the Letter "E" followed by the distinguishing number of the country which has granted approval.

- **5**: Sweden

- **VIII**: Rigid plastic glazings other than windscreens

- **A**: for forward facing panes

or

- **B**: for side, rear and roof glazing

or

- **C**: in locations where there is little or no chance of head impact

- **M**: Classification, Abrasion test

### Tests included in the ECE R43:

- Flexibility test
- Head form test
- Weathering
- Cross-cut
- Abrasion
- Humidity
- Light transmission
- Fire resistance
- Chemical resistance

## Approval number depending on thickness and light transmission:

Trade name:	Number:	Class A	Class B	Class C	Thickn (mm)	Colour:	LT %:
